## 'SARANSH'

A Kathak Music scape

'Saransh' means 'the essence'... This is an effort to try and relate the Kathak aesthetic to the dynamics of different music streams... Kathak idiom and form is very flexible and adaptable... Here it tries to connect not only with various music sensitivities, but also with their ethos and spirit...! The language of Dance and Music is universal... It directly reaches every sensitive heart... yet it necessarily is an abstract language... which says it all but says nothing specific... nothing concrete...! A lot is left for an artist to decipher, interpret, and analyse...!
